

John Cheeseman

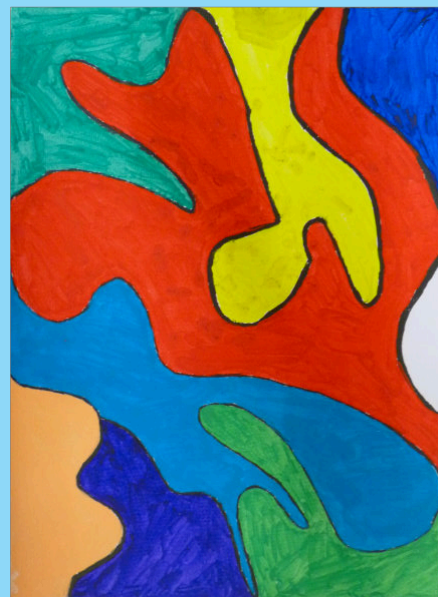

I took up art when I joined Art for Leisure and Pleasure not long after moving to North Devon from Wiltshire. I began by attempting to copy pictures and photographs but gradually moved towards more abstract work.

My preferred medium is watercolour. My most recent work was displayed at the Art for Leisure and Pleasure Easter 2022 exhibition.

At present I am exploring areas of colour and their relationship to the colours around them. I fill areas with vibrant colours, often containing them within a black line framework. Some people have commented that my pictures remind them of stained glass panels.
